

2023 // DODGE HORNET

Preproduction model shown with optional features. Production model may differ. R/T PHEV available Spring 2023.

BRACE FOR THE STING

It was born to be the gateway into the Brotherhood of Muscle. It was built to disrupt the segment – to amplify the ingenuity and performance that makes a Dodge a Dodge. We've sharpened our stinger to deliver a muscle utility vehicle straight from the honeycombs of the industry's most badass hive: the all-new **DODGE HORNET**.

Dodge Hornet GT shown in Blue Steele
with available Track Pack and Blacktop Package.

HORNET GT //

THE INDUSTRY'S QUICKEST, FASTEST AND MOST POWERFUL UV STARTING UNDER \$30K MSRP^{1*}

THE MOST POWERFUL COMPACT UV⁵: HORNET R/T

Unlike a bee, a hornet stings more than once – so does the newest Dodge. Hornet GT orders are open now, and in Spring 2023, the first electrified Dodge will emerge: the Hornet R/T Plug-in Hybrid Electric Vehicle (PHEV).

If you think hybrid means a less aggressive Dodge, you'd be wrong. The Hornet R/T architecture will combine power from the 1.3L Turbo engine, an electric motor, plus a boost of power from the segment-exclusive PowerShot,⁶ delivering an estimated combined 285+ horsepower. When activated, PowerShot also produces a neck-straining 383 lb-ft of instant torque. That's an expected additional 20 horsepower and 88 lb-ft of torque more than the GT model.

Dodge Hornet R/T PHEV shown in Acapulco Gold with available Track Pack and Blacktop Package. Preproduction model shown. Actual production model may differ.

DIRECT CONNECTION // Made to shake up a segment and made to be customized. Look for the arrival of Direct Connection components for the all-new Dodge Hornet. Coming soon: stage kits, unique wheels, lowering kits, exhaust packages and more. www.dcpperformance.com
